Message

Dear Gov. Cooper, I am pleading with you to hold at least three public hearings sponsored by NC DEQ to address the unsatisfactory economic development concerns and submissions by the Atlantic Coast Pipeline. I know you care deeply about our states environment and stand against offshore drilling. This pipeline could be as damaging as offshore drilling. Experience has shown that all pipelines leak. Eastern NC estuaries, rivers and lakes could be poisoned forever by leaked fracked oil and gas. Those who live along the route are indigenous people, third generation farmers and people of color. They are being harassed, and lied to by representatives of the ACP. The ACP route was changed (lengthened) because of opposition by wealthy neighborhoods that would be affected. Please Governor Cooper don't risk our peoples's health, and our environment for corporate profit. What will your legacy be, dear Governor?
